From sibling arguments to temper tantrums, parents constantly must manage conflict. These challenging moments are pivotal opportunities to promote your child's psychological development. <i>The Whole-Brain Child</i> explains the neurological and developmental reasons for many of your child's meltdowns and misbehaviors. When the different parts of your child's brain—such as the logical left brain and the emotional right brain—are not integrated, it makes your child mentally and emotionally off-balance, which causes them to act out. In this book club Lamar will discuss how to recognize signs of dis-integration, as well as strategies to help your child to re-integrate their mind. With these tools, your child will develop a stronger relationship with you, increase their self-awareness and emotional self-control, and build the foundation for a lifetime of healthy relationships and mental and emotional stability. Please have the book and read chapter 1 – Parenting with the Brain in Mind before attending this training.
